Projects

Skylark - E-Commerce Website

Jan 2025

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack e-commerce platform with MERN stack, offering a seamless shopping experience.
- Designed a responsive front-end using React.js and Tailwind CSS for a modern, user-friendly interface.
- Built a secure back-end with Node.js and Express.js, incorporating RESTful APIs for efficient data handling.
- Implemented user authentication, product reviews, and order history tracking for enhanced functionality.
- Developed an admin panel for managing products, categories, orders, and users efficiently.
- Optimized performance with server-side pagination and lazy loading, improving load times by 30%.

BulkMail - Email Automation App

Dec 2024

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a bulk email automation application allowing users to send emails to multiple recipients with a single click.
- Designed a responsive front-end with React.js and Tailwind CSS for a user-friendly experience.
- Built a secure back-end using Node.js and Express.js with RESTful APIs for seamless email delivery.
- Integrated MongoDB for efficient storage and retrieval of user data and email templates.
- Implemented user authentication and role-based access for enhanced security.
- Optimized email delivery by integrating third-party email APIs such as SendGrid or Nodemailer.

Education

Kuppam Enginnering College

May 2024

Bachelor of Technology (CSE)

CGPA-7.8

Certifications

- Full Stack Web Developer –Vstand4u solutions
- Adavance omputer Architecture – NPTEL
- Software Project Managment – NPTEL
- Cloud Computing – NPTEL
